FX Vision Review

(Author Bravehoststamps)

Program Overview

FX Vision is an online FOREX-based investment opportunity, administered by the owner of www.gold-horizons.com. The program is run in a strictly private, invitation-based mode. It uses the ACM Refco Group platform to generate returns for its members. Although the online option is fairly new, the program's trader acquires a multi-year experience in FOREX trading, with an overall successful result having been achieved. The company is temporarily operating as a division of High Yield Ventures Ltd., registered in the British Virgin Islands. The process of obtaining an IBC offshore registration in Panama or Seychelles will be completed in the first quarter of 2005.

Business Concept

The company currently accepts deposits via E-gold, E-bullion, EMO, and wire transfer. The use of PicPay for this purpose is temporarily terminated until further notice. The withdrawal of principle is allowed after 120 days from the date of a deposit. Interest can be withdrawn once per month. The minimal investment amount is currently fixed at US \$500, with the maximum being set at US \$10,000 per week. The maximal amount for wire transfers is US \$100,000. All earnings are posted to members accounts on a weekly basis. New deposits start earning interest next Monday after the date they were made. No interest is calculated for pending withdrawals. All withdrawals are processed upon request. The interest rates are variable, averaging at 3% weekly. Any type of financial activity, related to your account, is displayed on the internal account balance in a password-protected personalized section of the website. In average, 50-60% of the total capital is used every trading day in order to reduce the risk of losses.

Website and Customer Support

The company maintains a highly professional website, with numerous security features being implemented (such as advanced password protection with a turning number). A dedicated support team is ready to answer any questions in a prompt and informative manner. For this, members are encouraged to use a secure online contact form, available in the members' area of the website. While submitting an inquiry, you can indicate the level of its priority ("Low", "Normal", or "High"). A response will be provided within the next 24 business hours. In addition, members are welcome to use a forum, located on the program's website.

Our Opinion

The program is operated by a credible team of experienced online investment experts who have gained excellent reputation throughout the years of their financial activity (with the admin of www.gold-horizons.com being one of the most well-known staff members to online investors). The company had no problems with providing a copy of its trading history, which is currently displayed in the member's area of its website. We view FX Vision as one of the most solid and credible investment opportunities, currently available on the Internet.
