### Invex Review

(Author Bravehoststamps)

#### Program Information

Invex Ltd. (<https://www.invex.org>) is an online subdivision of Panama-based "Lomax Group Corp.". The program itself acquires its own offshore registration in the Cayman Islands. The online program exists since late 2004 and claims to have registered offices in a few places, including Geneva where its staff is based, London, Amsterdam, Frankfurt, Hong-Kong, Philadelphia (PA) and New-York, Caracas, Budapest, Tunis, etc. Members' funds are allegedly invested in a variety of high-yield ventures, quite often in one-time opportunities on a case by case basis. In addition, the program has parts in a big online casino network, in a large hosting network too, altogether with investing in oil, real estate, and more generally in all domains that can generate high profit, even only one time.

#### Business Concept

The company offers several investment plans, including the Platinum plan, the Titanium plan, and the 2006 Bond plan. The last two options are relatively new: the Titanium plan (minimum \$50,000) has been launched in May/June, 2005 and the "2006 Bond" plan is the program's newest product. The Titanium plan is a very personal plan for each Investor, according to the amount he wants to invest, and the date of the investment. It is on 3 or 6 months, with the capital locked, and with a written guarantee by the LGC, the program's upstream holding. The company's Staff meets with those Investors who are willing to invest in a Titanium plan (generally in Geneva, Switzerland) to sign an agreement, so they have all the guarantees that in case Invex Ltd. cannot pay the interest OR the principal back, the Lomax Group Corp. will pay the principal back. As for the "2006 Bond" plan, it holds the status of a special deal: Bonds that will be paid on January, 2006. Currently, they can be purchased for \$1,000 (before the end of July), and will be valued at \$35,000 on January 2. The high return rate is explained by a major oil operation in Central Asia, which involves a few Governments. Large companies and banks are allegedly involved in this operation, and the Invex Ltd. signed agreements to offer these bonds. The company has also signed non-disclosure agreements, so it will not disclose any information about the emitters of these bonds, which banks/governments are involved etc.

The company accepts the following methods of payment: E-gold (any amounts), E-bullion (starting at \$100 USD), and bank wire transfers (starting at \$50,000 USD or less). Members are allowed to cancel their deposits – in this case, the principal is returned. In addition, the program offers a 2% referral commission for every new investor introduced to the program.

Silver 100% in 6 weeks		Gold 100% in 5 weeks		Platinum 100% in 4 weeks

## Website and Customer Support

The company has hired a professional web-designer to maintain its website in a fully operational mode. Invex Ltd. has offices in a few places, with a prompt fax and live support being offered. E-mail remains to be the most effective way of contacting the program's support team. In certain cases, members are provided with a telephone number at which one of the company's representatives can be reached.

## Our Opinion

For the six months of its online operation, Invex Ltd. has gained the reputation of a responsible investment program. With a few thousands of investors and over two million dollars of deposited funds, the company hasn't missed a single payout for the entire period of being in business. The company declares its plans on offering new financial products and instruments in the future – hence, its further growth and advancement can be expected soon.
